With investing your capital is at risk

Evelyn Multi-Asset Funds

These Evelyn Partner Multi-Asset Funds provide a tax-efficient vehicle through which to access direct stocks/shares, collective investment funds and bonds, including corporate bonds. With four different strategies, each fund is linked to our sophisticated risk profiling process to ensure investors have exposure to the optimal blend of available asset classes. Drawing on the expertise of our extensive internal research resource and overseen by a dedicated team of the firm's most senior investment professionals, each fund is dynamically rebalanced to meet a range of clearly articulated inflation plus return targets.

Investment objectives of the fund

The investment objective of the Fund is to seek to achieve capital growth over the long term, investing directly in equities, bonds and alternative assets.

The portfolio will primarily be comprised of equities, normally representing up to 80% of the portfolio. The Fund will also directly invest in a range of bonds including sovereign, supranational/sovereign-related and/or corporate bonds (with a focus on investment-grade or equivalent rated issuers). The portfolio will also include alternative assets such as hedge/private equity funds, precious metals and real assets e.g. infrastructure and REITs and some cash.

Cumulative performance (%)

Cumulative performance can be useful as an indication as to what an investment has or would have achieved for you in real terms over a period and represents the funds overall long-term performance. The performance data is sourced from Morningstar and covers the period 17 January 2023 to 30 April 2024. It is the total return (return inclusive of interest, capital gains, dividends, and distributions), it does not include the impact of tax but does include the impact of the OCF.

The benchmarks used are for comparison only to help you understand the performance of your investment relative to the consumer price index (UK CPI) and in relation to ARC Sterling Steady Growth PCI. Comparing to CPI can show you how the fund performed versus inflation. While ARC allows you to compare with a cross section of private client portfolios managed by other firms with similar levels of risks.

Figures shown refer to the past and past performance is not a reliable indicator of future results.

Important Information

The value of an investment can go down as well as up and you may get back less than the amount invested.

You may face a financial loss should the Fund or the depositary default on their obligations. There is no compensation or guarantee scheme in place which may offset all or any such loss. You are required to read the Key Investor Information Document (KIID) before making an investment. The KIID, prospectus and supplements for all funds are available free of charge at www.evelyn.com/services/funds/ or by calling 020 3131 6197. All data is as at 30 April 2024 and rounded to nearest 0.1.

In difficult market conditions, the Fund may not be able to buy and sell investments at the best time or at a fair price. This could affect the Fund's performance, potentially reducing your returns. Furthermore, if a significant proportion of the Fund's investments suspend trading or defer trades placed the Fund may in turn be suspended or defer payments to investors.

The Evelyn Multi-Asset Growth Fund is a sub-fund of the Evelyn Partners UCITS ICAV, an open-ended Irish collective asset management vehicle which is constituted as an umbrella fund with segregated liability between Funds and with variable capital and authorised under the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations, 2011 (as amended). Retail and clean share classes are available as accumulation shares. The Evelyn Partners UCITS ICAV is administered by Citibank Europe plc.
